FOREWORD

KWhen, six years ago, we decided to establish a nonprofit organization to assist single-parent families in need, none of us could have imagined how important it would be. This is evidenced by the thousands of clients who turn to us annually with requests for help in various life situations, where the Free Mothers Club has become a place that won't let them down. In charity work, it often happens that a year flies by and you feel that nothing special has occurred over those 12 months. For us, it is proof that the mechanisms of our organization's operation are well set and fully functional.

In 2023, the total amount of financial and material assistance we distributed exceeded the value of 12 million crowns, of which the largest portion was financial aid within the housing and food assistance program. Seasonal assistance programs were not overlooked either, such as covering summer camps and schools in nature, school supplies in the Back to School program, or the traditional Christmas tree of fulfilled wishes. Material assistance was conducted through our Clothing Bank, which, in its second year in cooperation with food banks and local nonprofits from across the Czech Republic, helped all those in need with crisis packages of clothing. The total scope of this assistance exceeded 10,000 packages or 40 tons of women's, children's, and men's clothing.

All of the above would not have been possible without the support of our donors, from the general public to corporate and government institutions, whom we thank very much. In our activities, we are not dependent on state subsidies or other public financial sources; all funds come exclusively from the private sector. This arrangement allows us independence and also motivates us to efficiency and innovation to maintain the trust and support of our partners. We are very aware of the difficulties of the past year, as many individuals and households found themselves in difficult financial situations not limited to single parents, and we are even more grateful that the support for our organization for single parents remained intact. It is the greatest motivation for us to continue in our work, which we strive to do as well as possible.

Dana Pavlousková, Founder and Director of Single Mother´s Club

ABOUT US

The nonprofit organization Klub svobodných matek/Single Mother´s Club

Was founded in 2018 and is the only nonprofit organization providing comprehensive support to single parents across the Czech Republic. Our activities provide financial, material, legal, and informational assistance.

Financial aid is consistently provided within the main assistance program, contributing financially to food and housing costs (rent, energy), and in seasonal assistance programs, such as covering summer camps and schools in nature, contributions to school supplies, school lunches, and extracurricular activities in the Back to School program, and securing Christmas gifts for children from needy single-parent families.

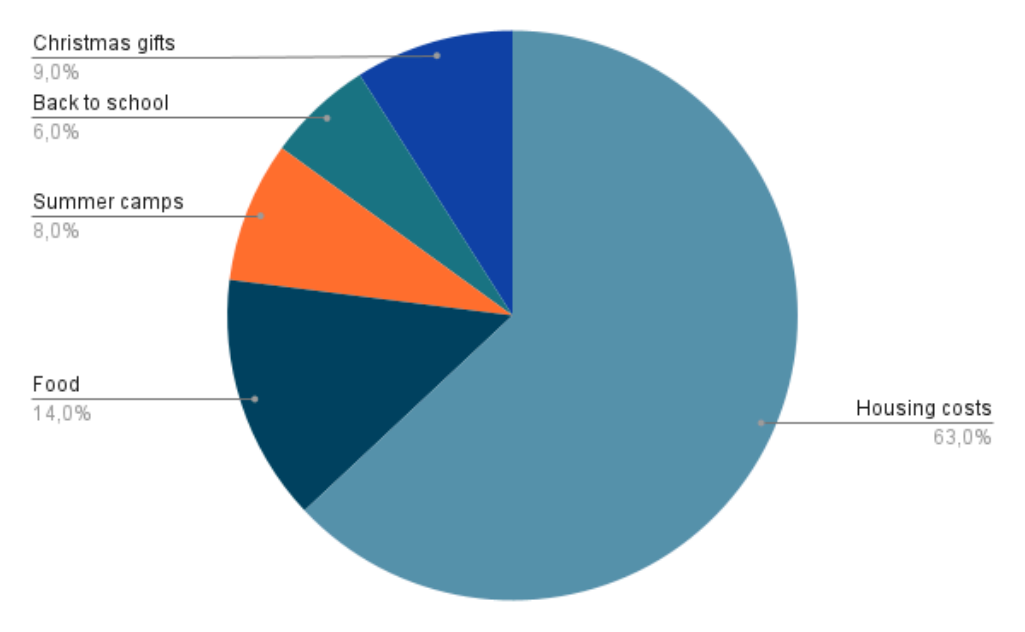

Material assistance is primarily provided in the form of clothing under the auspices of our Clothing Bank. This has led to an expansion of the recipients of assistance, which is provided not only to single parents but also to seniors, the homeless, refugees, and families or single individuals in difficult life situations.
Professional assistance is provided through our free legal clinic, and informational assistance is primarily provided through our free hotline.

Overall, our organization serves several thousand single-parent families each year, who turn to us in various life situations. All our activities are carried out in cooperation with the general public and legal entities, resulting in a synergy of input resources and the maximization of the resulting effect of the provided services.

KEY ACTIVITIES

FINANCIAL HELP TO SINGLE PARENT FAMILIES

Throughout 2023, we financially supported 1,065 single-parent families facing challenging life situations. Most of these funds were allocated to cover costs associated with housing and utilities, followed by financial resources for securing food or Christmas gifts, payments for summer camps or schools in nature, or school supplies as part of the Back to School program. Our primary goal is to ensure basic living needs for single parents so that they have secure housing and sufficient food. Next, we focus on supporting the social and educational development of children from these families, including help with paying for extracurricular activities, schools in nature, and also providing Christmas gifts. Our efforts to provide comprehensive support to single-parent families are crucial for improving their living conditions and building a stronger community.

KEY ACTIVITIES

FINANCIAL HELP TO SINGLE PARENT FAMILIES

Last year, we conducted an online survey "Summer Camps and Single Parents' Children," which revealed that 60% of children from single-parent families would not go to summer camps. The luckier ones spent the summer mostly at residential camps (48%), day camps (40%), and the remaining part (12%) at a combination of both. More than a third went on trips with parents (36%) or spent time with relatives and friends (33%), more than a tenth went on a vacation (13%) or attended a kindergarten or school club (12%). More than half (54%) spent the holidays at home. The response was then a campaign to help with the payment of summer holiday camps, to which we could send almost a hundred children.

Last year, we achieved unprecedented success in our Christmas initiative for children from single-parent families, thanks to the generous support of our donors, spending exactly 1,050,000 CZK on buying Christmas gifts. This amount allowed us to provide 531 children with their dream gifts. Additionally, we received products from many companies specifically for Christmas gifts. A big surprise awaited the mothers at the Clothing Bank during the gift distribution. Not only the gift their children wished for but an additional 876 gifts in the gift self-service area, from electronics to plush toys. This approach not only increased joy and happiness among the children but also provided single parents throughout Prague and the Czech Republic the opportunity to choose gifts that best meet the needs and wishes of their children. Our efforts and the generosity of our donors ensured that the Christmas holidays were truly magical for these families.

KEY ACTIVITIES

IHOTLINE, ONLINE ADVISORY SERVICE

Our nonprofit organization operates a toll-free helpline, available to clients every business day from 9 a.m. to 6 p.m.

800 99 55 11

Last year, the helpline handled nearly 1,800 calls, or approximately 150 calls per month, from single parents facing various life situations.
Clients also have access to the helpline via email, which processes around 100 written inquiries per month. Our legal department also handles queries in the field of family law.
The most frequent client inquiries concern the following areas:

- Options for financial assistance for single parents
- Functioning and parameters of the social welfare benefits system
- Advice on correctly filling out application forms for assistance
- Consultations for individuals leaving relationships
- Related financial matters (property settlement, etc.), debt counseling
- Options for placing a child in care
- Housing options for single parents
- General entitlements for single parents
- Child support (entitlement, amount, arrears), enforcement, insolvency
- Queries from collaborating social workers

KEY ACTIVITIES

CLOTHING BANK

Looking back at 2023, we see not only numbers and statistics but above all, human stories and a joint effort. In the Clothing Bank, we witness how each piece of clothing carries its story and becomes part of a larger work - help and hope for those who need it most. Last year was marked by great solidarity and generosity, which manifested in a huge volume of donated clothing, where the symbolic weight of help stopped at the number 40,468 kilograms, representing exactly 10,117 crisis packages with clothing. These numbers represent not just the volume of donated clothing but above all our collective effort, which we have made to help the most needy.

Where do we get the clothing from?

Firstly, from the general public, which provides us with clothing as a donation from all over the Czech Republic in return for our shipping code via Zásilkovna. Secondly, from small, medium, and large companies, which fulfill their CSR goals through such cooperation, and we are proud that cooperation under the auspices of the Government Office has been functioning for the second year through employee clothing collections.

HThe main distribution channel for the provided material aid last year was food banks, with their help we were able to distribute over 24 tons of clothing. Another nearly 12 tons of clothing were divided among our other collaborating organizations, which are mostly local nonprofit organizations that play a key role in our effort due to their direct contact with people in need and their ability to effectively distribute the clothing we donate to the right places. Last but not least, nearly 4 tons of clothing were issued as part of direct distribution in our Clothing Bank, which is particularly important to us because it allows us to be in contact with the target recipients of our help.

KEY ACTIVITIES

CLOTHING BANK

Nemůžeme opomenout jednu z nejdůležitějších složek našeho úspěchu - naše dobrovolníky. V roce 2023 se k nám připojili desítky neuvěřitelně nadšených dobrovolníků, jejichž neúnavná práce nám nejednou vytrhla trn z paty. Od třídění darovaného oblečení, přes organizaci sbírek, až po distribuci pomoci - naši dobrovolníci byli celý rok s námi. Jejich nezištná práce a obětavost jsou pravým ztělesněním solidarity a vzájemné spolupráce korporátního a neziskového sektoru. Bez jejich pomoci bychom nedokázali rozdělit tolik pomoci a dotknout se tolika životů. Našim dobrovolníkům patří obrovský dík a uznání za vše, co pro nás dělají.

"*Hello, I would like to ask for material assistance with clothing for me and my daughter. I am still on material need. My daughter (3 years old) started kindergarten in September, but has been sick every other week since then. I was supposed to start a new job in mid-September, but since she was sick, I did not start and will be looking for a job with a regular employment contract once this period is over. On days when she is in kindergarten, I try to cover cleaning households or distributing flyers to at least slightly improve our situation, but I do not always find work for the days I can work, and I do not have anyone to take care of her so I could go to work. If there was something for us at the Clothing Bank, I would be grateful. Clothing is quite an expensive item (especially when the little one grows like water) and in this life situation, I am glad that we can afford to have food for the entire month...*", a request for clothing from Mrs. Blanka B.

We are proud that the Clothing Bank participated as one of the active presenters at the Good Company Circle 2023, the Sustainable Development Summit in November 2023 at the Exhibition Grounds in Prague's Holešovice. The conference focused on cooperation between the commercial and social sectors and related benefits or obstacles, government approach, impacts of legislation and taxes, as well as ESG standards, i.e., quantified requirements for companies in terms of environmental, social responsibility, and diversity of management. The conference was held under the auspices of Economia media house and JTI company.

The main partner of the Clothing Bank remained JT International, which has been collaborating with our nonprofit organization for a long time after positive experiences with previous projects aimed at increasing the chances of single parents for employment.

KEY ACTIVITIES

FASHION CHARITY SHOP

Fashion Charity Shop is our nonprofit organization's charity second-hand shop, which includes two brick-and-mortar stores and an e-shop. The items for sale are clothing from donations by the general public, employee collections from companies or institutions, and well-known personalities. All proceeds from the sales go into our programs to assist families of single parents. We ensure that all offered clothing undergoes thorough inspection and only like-new brand-name clothing items are available at fractional prices compared to their acquisition value.
The main Fashion Charity Shop has been operating for three years at a lucrative location in Prague's Holešovice directly opposite the National Gallery and is a selective second-hand shop with women's fashion and accessories, where literally anyone, including more demanding customers, can shop. Another branch is located in Hovorčovice on Prague-East and meets the concept of an industrial hall with an offer of up to 2,000 pieces of women's, men's, and children's clothing aimed at a wide clientele.

The third form is online sales through the e-shop www.fashioncharityshop.com, which primarily serves customers outside of Prague.

From personal contacts with donors, we see that they are genuinely pleased with this opportunity to donate clothing, which corresponds with our motto "Give things a new meaning." TV Nova, with which our nonprofit organization organized a weekend charitable clothing collection in cooperation with the Prague shopping center Letňany.

KEY ACTIVITIES

FASHION CHARITY SHOP

Last year, we served more than 10,000 customers in our brick-and-mortar stores, and a new home was found for more than 24,000 pieces of clothing. This success is proof of our commitment to providing quality products, excellent customer service, and also supporting the circular economy.

Our charitable shops play a key role in our overall sustainability and self-sufficiency strategy. Over the past year, we have intensively devoted ourselves to developing and expanding our stores, which allow us to increase awareness of our organization, but also to generate financial resources necessary to cover our operating costs and support our key programs. This initiative helps us reduce our dependence on external donations, which is in line with our goal to be as independent and efficient as possible.

FINANCIAL REPORT

The financial management for the year 2023 ended with a negative economic result of -2.8 million Czech koruna, with revenues totaling 18.6 million Czech koruna and expenses amounting to 21.4 million Czech koruna.

The organization's activities are divided into two cost centers, namely the nonprofit and profit-making parts. In the nonprofit section, revenues reached 13.23 million Czech koruna and expenses amounted to 16.38 million Czech koruna, resulting in an economic result of -3.15 million Czech koruna. The largest expense item on the expenditure side was the provision of financial, material, and expert assistance to single-parent families and related operational costs (packaging material, transportation) amounting to 12.1 million Czech koruna. A special expense item was the operating costs of the Clothing Bank totaling 2.1 million Czech koruna, mostly sponsored by the main corporate partner. The remaining 13% of expenses consisted of organizational operating costs (rent for administrative and warehouse space, energy consumption, insurance, telecommunication services, employee remuneration, accounting and tax services, marketing expenses, etc.).

In the profit-making section, consisting of revenues from ancillary economic activities (income from charitable shops and an e-shop), revenues amounted to 5.4 million Czech koruna and expenses totaled 5.1 million Czech koruna, resulting in an economic result of 0.3 million Czech koruna. The main expense items included rent and energy consumption, consumables and production materials, insurance, employee remuneration, and marketing services.
